Portfolio: <https://vigneshhere.github.io/vignesh.github.io/>

Target Roles

Senior UI Developer, Project Manager, Scrum Master, Data Analyst (Junior), HR (Junior)

Summary

Results-driven professional with 13+ years of experience in UI development, frontend engineering, team leadership, and project delivery. Skilled in Angular, React, WordPress, HTML, CSS, and JavaScript. Proven ability to lead cross-functional teams, deliver enterprise-grade web and mobile applications, and translate business requirements into user-focused design and scalable technical solutions. Hands-on experience in Project Management, Agile/Scrum methodologies, and Data Analytics using Excel, SQL, Python, and Power BI. Took a career break due to a successful kidney transplant, during which continued freelancing, client project deliveries, and skill development. Fully recovered, actively seeking to contribute as a Senior UI Developer, Project Manager, or Analyst with renewed energy and focus.

Core Skills

Frontend Development: HTML5, CSS3, JavaScript, Angular (1–9), React, Bootstrap, Tailwind CSS, SCSS, jQuery, WordPress

Backend & Tools: Node.js (basic), REST APIs, Git, GitHub, Webpack, NPM, Babel

UI/UX & Design: Figma, Adobe XD, Canva

Project Management: Agile, Scrum, Jira, Confluence, Team Leadership

Data Analytics: Excel, SQL, Python (Pandas, NumPy, Matplotlib), Power BI

Soft Skills: Leadership, Mentoring, Stakeholder Management, Problem Solving, Client Communication

Experience

Data Analyst Intern — Jobaaj.com | Remote | May 2025 – Present

- Built exploratory analyses and dashboards using Excel, Power BI, Python, and SQL.
- Practiced metric design and reporting to support product hypotheses.
- Gained hands-on experience in data cleaning, modeling, and visualization.

Project Manager / Scrum Master — Ziya Academy LLP | Remote/Hybrid | Jun 2025 – Jul 2025

- Owned planning and delivery for a Social Media Task & Analytics platform with 1000+ users.
- Partnered with stakeholders and UX to design an Attendance & HR dashboard application.
- Coordinated cross-team dependencies and aligned releases with change readiness.
- Led migration of the company website to Next.js, improving SEO and performance.

Freelance Product & UI Delivery Lead — Self-Employed | Remote | Sep 2021 – Jun 2025

- Delivered client websites and applications using React and WordPress, including ongoing maintenance and updates to existing sites.
- Acted as product owner for small engagements: gathering requirements, grooming backlogs, and preparing release notes.
- Introduced reusable component libraries and UX enhancements, reducing development cycle time and minimizing rework.
- Managed project scope, client communications, and stakeholder demos to ensure timely and high-quality deliveries.

Senior Software Engineer / Team Lead — Simelabs | Kochi | Sep 2019 – Aug 2021

- Delivered Angular projects with iterative planning, backlog refinement, and definition-of-done practices.
- Mentored engineers, created reusable components, and improved feature delivery throughput.
- Conducted client demos, sprint retrospectives, and improved delivery predictability.

UI Team Lead (Client: 3UK Mobile) — Tech Mahindra (Contract) | Bangalore | Nov 2017 – Jan 2019

- Led a team of 7 UI developers for UK telecom client 3UK Mobile.
- Improved on-time delivery through sprint planning and dependency tracking.
- Managed stakeholder demos and release cadence stability.

Senior Software Developer — Augusta Hitech | Coimbatore | May 2015 – Oct 2017

- Delivered responsive web apps for US and Indian clients.
- Led a small team, introduced workflow automation, and improved peer review practices.
- Ensured timely and quality delivery of scalable web applications.

UI Developer / UI-UX Designer — Anmeda Systems | Bangalore | Jan 2014 – Feb 2015

- Full-cycle UI/UX development for internal and client projects.
- Built responsive web designs and internal tools.
- Designed and deployed company website.

Web Developer / Team Coordinator — Mindbells Technologies | Bangalore | Nov 2012 – Dec 2013

- Delivered client websites independently using HTML, CSS, JavaScript, and WordPress.
- Coordinated HR and operations, gaining early leadership experience.
- Balanced technical and administrative responsibilities.

Education

Bachelor of Engineering (B.E.), Electrical & Electronics Engineering — J.J. College of Engineering and Technology, Trichy, Anna University (2008–2012)
